

IFLA Cataloguing Section

Names of Persons

Introduction:

According to the International Cataloguing Principles (ICP)¹ the **Form of Name for Persons as an authorized access point** should be constructed following a standard: "*When the name of a person consists of several words, the choice of first word for the authorized access point should follow conventions of the country and language most associated with that person, as found in manifestations or reference sources*". Thus, this set of documents summarizes the conventions for each country, established by each national cataloguing agency, to help other cataloguing agencies creating authority data worldwide.

Please access *IFLA Names of Persons*² to submit updates from your country and to access more information.

Country name in English: Croatia

Country name in official language(s): Hrvatska

Language in English: Croatian

Language name in official language(s): Hrvatski
